Subject: Dimock - SAP Rev02?

Hi Rupert,
I don't mean to keep bugging you about the SAP, but I want to ensure it doesn't slip between the cracks. Can you please review SAP Rev02 and let me know if you approve it. This SAP had been modified to reflect the change in parameters we were analyzing for during the March sampling event. For your convenience, I have attached a copy of the SAP.
Thanks,
